

Addendum #1

NOTICE: This is a two-part solicitation.

Due to changes in the procurement statutes in recent years and various interpretations of its requirements for installation of fixtures in public buildings or some projects being considered construction public works, 791COOP has determined that going to a two-part process will best meet the legal needs of all of our members.

791COOP Members sometimes consider the installation services of the goods supplied under this contract as a public work/construction, since they may be considered fixtures or construction.

Proposing vendor may respond to part one or part 2 or to both parts. **If you provide installation services, you should respond to Part 2 for the contract to be effective and usable by 791COOP members.** Failure to respond to part 2 WILL NOT affect your award chances on the Part 1.

It is acceptable to propose on only Part 1, but it may limit your sales opportunities for sales of goods and delivery/installation services. **It is highly recommended that you respond to both parts** to take advantage of all opportunities. If you need help with proposing the RS Means pricing model, you may contact us for assistance.

If you need help or explanation of the **RS Means** unit price book, 791COOP has staff that can provide some guidance, but understanding of the unit price book method is the responsibility of the proposer. The Center for Job Order Contracting of Excellence (CJE) has training programs for Unit Price Books and can be found at: <https://jocexcellence.org/>

- **Part 1** of the two-part solicitation is the goods and non-construction services section that must be procured according to *Texas Education Code §44.031* and the solicitation description is a Request for Proposals. Only services that are considered non-construction are permitted under Part 1. Example: depending on the judgment of the 791COOP Member entity, this may include installation of the Sports Facility Lighting.
- **Part 2** of the two-part solicitation is the installation section for projects that the work required for installation is considered a public work construction project and the solicitation description is a Request for Competitive Sealed Proposals as permitted under *Texas Government Code §2269*; Job Order Contracts. How the installation is classified is dependent on the judgment of the 791COOP member and the work involved in the specific scope of the project.

Example: if the member is purchasing a modular building and there must be engineered footings, sidewalks, awnings and walk way covers, plumbing or electrical service installed at the site for the building, they may be required by statute to engage an independent engineer and the project may be considered a construction or public works project that requires procurement according to Texas Government Code 2269.

ALL OF THESE TYPES OF WORK PROJECTS ARE INCLUDED IN THE RS MEANS UNIT PRICE BOOK AND OTHER UNIT PRICE BOOKS. FAILURE TO PROVIDE THE EXHIBIT A. JOC PRICING SHEET WITH YOUR PROPOSAL SHALL DISQUALIFY YOUR AWARD UNDER THIS SOLICITATION PART 2.

- Part 2 - Installation and Construction on Site Considered a Public Work - Job Order Contract (JOC)
- Part 2 is a Request for Competitive Sealed Proposals as permitted by Texas Government Code §2269

Addendum #2

VI. PRICING FORMAT

Depending on the scope and circumstances, the pricing of may be required by Texas Government Code §2269 to be procured by a method enumerated in the statute. The method permitted by a purchasing cooperative such as 791COOP is the Job Order Contract (JOC) method. The statute requires the use of a unit pricing model and the Unit Price book 791COOP specifies is the RS Means Price book. The statute also requires the pricing to be submitted as a coefficient of the Unit Price Book's line item prices. The part 2 pricing sheet provides for your proposal of the coefficient and a markup for non-listed items.

It is the intention of 791COOP to establish an agreement for delivery of installation and ancillary services that are considered by the 791COOP member as a public work construction. An example this solicitation is for a project for Sports Facility Lighting of this solicitation, Playground equipment, an overhead door, flooring replacement, and other trades for the entire project to be performed under Part 2.

Due to the varied scope and nature of these types of projects, 791COOP members in various jurisdictions have different interpretations of what is and what is not a public work construction project requiring the Job Order Contracting (JOC) procurement process under Texas Statutes. Therefore, 791COOP is providing the option for members that require the JOC process to procure those services relating to this solicitation using this contract.

FAILURE TO PROVIDE THE JOC PRICING SHEET WITH YOUR PROPOSAL SHALL DISQUALIFY YOUR AWARD UNDER THIS SOLICITATION PART 2.

Proposers must provide pricing based on a multiplier coefficient of the R.S. Means (or other price book) price book sections for the categories solicited.

A. Pricing

- 1. Wage Rates:** 791COOP members usually, depending on the jurisdiction, have to designate or follow specific wage rates for their construction projects. Many times, this is Davis-Bacon Act and sometimes it may be another local wage rate determination. Regardless, the contractor must comply with the designated wage rates and the RS Means Unit Price Book has taken into account the local wage rates for the specific geographic area where work is to be performed.
- 2. Maximum Aggregate Contract Price:** Texas Government Code §2269.403 (b) requires that the governmental entity shall establish the maximum aggregate contract price when it advertises the proposal. Because this solicitation is available for piggyback by multiple entities, there is no accurate method to project the maximum aggregate price. Therefore, an arbitrary maximum aggregate contract price for sales by all awarded contractors under this solicitation is set at \$150,000,000. This arbitrary figure is not a guarantee of any sales under the award and it should not be construed as an estimate of total sales during the contract period. If and when the \$150,000,000 figure is reached, the awarded contracts will expire immediately and a new solicitation may be issued if in the best interest of 791COOP and its members.
- 3. Job Order Contracting (JOC):** It is the intention of 791COOP to establish a contract to furnish and/or deliver construction services using the Job Order Contracting construction delivery method. The work includes minor construction, repair, rehabilitation and alteration services for a wide variety of colleges and universities, schools, cities, counties, healthcare and other government and non-profit agencies.
- 4. Unit Price Book (UPB):** It is the intention of 791COOP that the current edition of RS Means

Facilities Construction Cost Data at the time of the project acceptance – the published quarterly updates will be utilized.

5. **Estimating Requirements:** Awarded contractor must use RS Means Online. 791COOP will consider: Cost Works; JOC Works; 4 Clicks; or other approved estimating software. These other estimating software programs must be approved by 791COOP prior to awarded vendors utilizing them in this contract.
 6. **Alternate Unit Price Book (AUPB)** may be submitted. Offerors shall submitting Unit Price Books other than RS Means shall submit sufficient information to determine if the alternative Unit Price Book is acceptable for this program. 791COOP is the sole determiner of this, but may seek advice for the Center for JOC Excellence or CJE. Examples of AUPB are 4BT, Blue Book and others.
 7. **Software Licenses:** Offerors shall provide one (1) User license for 791COOP for whichever Unit Price Book; the Offeror chooses to submit in response to this RCSP. **Additionally**, any state or local government or non-profit that agrees to a certain volume determined in this RCSP, may receive one (1) or more Users license of the submitted Unit Price Book or please state the Project volume necessary to receive one (1) User License for review of contractor quotations.
 8. The Contractor shall furnish all necessary labor, materials, tools, supplies, equipment, transportation, supervision, management and shall perform all operations necessary and required for construction work. All work shall be performed in accordance with the requirements set forth in the resulting contract and each mutually agreed upon work request or purchase order issued by 791COOP participating members.
 9. A contract will be established with standard specifications and pricing based upon a coefficient that is applied to a Unit Price Book (UPB) from RS Means. When a specific project or job order is issued, 791COOP member and the contractor will agree on the scope of work and the cost is determined by applying the coefficient to the appropriate units in the UPB. Pricing will be evaluated based upon completion of **EXHIBIT A. JOC PRICING SHEET**.
 10. **Offeror's Pricing:** **EXHIBIT A. JOC PRICING SHEET must be downloaded from the "EXHIBITS" section of the RCSP, completed and uploaded to the copy of this RSCP with signatures. Offeror has the option of submitting a different document formatted differently for pricing with the Signed copy of this RCSP as long as pricing form has the same information.**
- FAILURE TO PROVIDE THE JOC PRICING SHEET WITH YOUR PROPOSAL SHALL DISQUALIFY YOUR AWARD UNDER THIS SOLICITATION PART 2.**
11. **Bonding:** Proposer must provide a letter from their Surety company(ies) that specify the bonding capacity of the proposer. Bonding surety must be authorized to do business in the State of Texas and be listed on the Department of the Treasury's Listing of Approved Sureties (Department Circular 570) Bonding capabilities documentation must be scanned and uploaded to the "Response Attachments".
 12. Proposers submitting Financial Statements in lieu of this will be required to submit a letter within 5 business days to the 791COOP, from their surety upon notice of Contract Award. Members may ask for Performance and Payment Bonds prior to beginning any work in accordance with Texas Statues or the statutes in the state the work is being performed.

VII. DESCRIPTION and SPECIFICATIONS

A. UNIT PRICE BOOK (RS MEANS)

1. **The Part 2 INSTALLATION SERVICES** section of this awarded contract will use a job order contract (JOC) for a fixed term or maximum dollar value, whichever occurs first, in which a contractor is selected based on a competitive proposals to perform various separate job orders in the future, during the life of the contract. Contract award is based on the bid coefficient factor which the contractor will multiply against “pre-priced” R.S. Mean’s unit price book. The bid coefficient factor represents all of the contractor’s costs (indirect and direct), overhead and profit. The other adjustment factor is updated annually based on the City Cost Index published for the closest location.
2. **The Part 2 scope is exclusive to the contractor.** The most important decision in administering the Part 2 contract is therefore the drafting of the scope. Because the contractor has been selected and the unit price is fixed (by the unit price book and the contractor’s coefficient factor), the Part 2 contract allows contractor input prior to design, which can expedite the work.
3. The Contractor shall furnish all necessary labor, materials, tools, supplies, equipment, transportation, supervision, management and shall perform all operations necessary and required for construction work. All work shall be performed in accordance with the requirements set forth in the resulting contract and each mutually agreed upon work request or purchase order issued by 791COOP participating members.
4. A contract will be established with standard specifications and pricing based upon a coefficient that is applied to an R.S. Means Unit Price Book (UPB). When a specific project or job order is issued, 791COOP members and the contractor will agree on the scope of work and the cost is determined by applying the coefficient to the appropriate units in the UPB. Based on the scope of work, the contractor may apply a coefficient less than the 791COOP contractor coefficients, if agreed upon by the contractor and the 791COOP member.
5. Pricing will be evaluated based upon completion of EXHIBIT A. JOC PRICING SHEET.
 - RS Means (Division 1 – General Conditions)

Building and Facility Trade Construction Services JOC Part 2

Building Installation/Construction on site considered a Public Work (JOC)

There is additional information in the RCSP document on RS Means. You may go to the RS Means website to learn more about this price book. <https://www.rsmeans.com> The RS Means Price Book is adjusted for different geographic areas by using a City Cost Index multiplier for each location. This is in the definitions section of the RCSP document. Example: The current Dallas' City Cost Index is 86.9% and it is included in the sample calculation below.

EXAMPLE:

Unit Price Book cost	\$100.00
City Cost Index (Dallas)	.869
Contractor Coefficient	.95
Formula	(UPB) x (City Cost Index) x (Contractor Coefficient)
Cost To 791COOP Member	$(\$100.00) \times (.869) \times (.95) = \82.555
791COOP Fee	$(\$82.555) \times (.0175) = \1.4447125
Net To Contractor	$(\$82.555) - (\$1.4447125) = \$81.11$

TO BE CONSIDERED FOR PART 2, YOU MUST ENTER THE COEFFICIENT you propose **IN ALL THREE OF THE BLANKS BELOW** to apply to the RS Means Price Book Pre-Priced Tasks for all divisions and to the Non-Pre-Priced Markup.

1. RS Means (All Divisions)_____Regular Hours Multiplier Coefficient
2. RS Means (All Divisions)_____After Hours Multiplier Coefficient
3. Non-Pre-Priced Markup_____Multiplier Coefficient* or markup percentage

*(Non-pre-priced line items are items not found in the Unit Price Book. Enter in the blank above your coefficient markup that includes overhead and profit.)
(EXAMPLE: 1.30 would be a 30% markup. Cost of item not in book \$100.00 x 1.3 coefficient = \$130.00 price to 791 Purchasing Cooperative Member)

Any regular hour's coefficient of 1.5 or greater will receive 0 points for the pricing criterion.
